PAY:
$18.00/hour

COMPANY DESCRIPTION:
With offices and subsidiaries in Nebraska, Arizona, the United Kingdom, Luxembourg, and soon Spain and Australia, Sandhills Publishing is an international provider of electronic and print services to companies and consumers around the world. The industries we serve are diverse and range from agriculture to technology. Information Technology and hands on customer service play a vital role in the day to day operations of the company and to the thousands of clients we serve. Nearly everything at Sandhills is done in-house, which creates many unique career opportunities in the area of IT, including software and database development.

QUALIFICATIONS:
- Junior or Senior majoring in Computer Science, Engineering, Computer Information Systems or related field preferred
- Experience with Microsoft SQL databases preferred
- Business experience preferred
- Database experience helpful, this would include the efficient design of databases, storing and retrieving records, and the normalization of data
- Strong computer skills and knowledge
- Flexible and open to change
- Stable and progressive work history
- Able to work according to standards procedures
- Able to work with minimal supervision
- Able to work independently and communicate within a team environment
- Professional appearance and demeanor
- Ability to travel both air and surface - valid driver's license required

DESCRIPTION:
The role of the Database Intern is to develop and maintain Microsoft SQL databases, SQL Server 2008 and newer versions. Specific tasks include schema design, monitoring and setting up replication jobs between databases located on geographically disperse campuses, developing and analyzing stored procedures, functions, triggers and views, and overall general database management.

The Database Intern will also help meet the application development needs at Sandhills Publishing. This responsibility will be met through the maintenance of current systems and development of new systems. Assume other duties as assigned.

COMPANY DESCRIPTION:
With offices and subsidiaries in Nebraska, Arizona, the
United Kingdom, Luxembourg, and soon Spain and Australia,
Sandhills Publishing is an international provider of electronic
and print services to companies and consumers around the
world. The industries we serve are diverse and range from
agriculture to technology. Information Technology and hands
on customer service play a vital role in the day to day opera-
tions of the company and to the thousands of clients we
serve. Nearly everything at Sandhills is done in-house, which
creates many unique career opportunities, including working
with the latest computer-related technologies.

QUALIFICATIONS:
• Majoring in Computer Technology or related field
• Experience with Web Development, HTML, CSS, JavaScript, ASP.NET, and VB.NET
• Experience with Microsoft products and .NET preferred
• Strong computer skills and knowledge
• Hardware experience helpful
• Flexible and open to change
• Stable and progressive work history
• Able to work according to standards and procedures
• Able to work with minimal supervision
• Detail and results oriented
• Able to work independently and communicate within a team environment
• Professional appearance and demeanor

DESCRIPTION:
The role of the IT Support Intern is to help support and
maintain in-house workstations, mobile devices, and peripherals.
This includes installing, diagnosing, repairing, maintaining, and
upgrading all hardware and software to ensure optimal workstation
performance for end users. This position will also provide over the
phone technical support for Sandhills Publishing’s
consumer computer magazines.

This will include answering any technical questions, either by phone
or via email, related to PC hardware and software. This position
requires a high level of professionalism and requires a high degree
of individual responsibility. Assume other duties as assigned.
